

## Console Gauge Pod for 1985-1987 Grand National, 1978-1987 Buick Regal & Oldsmobile Cutlass

1. This console pod requires your vehicle to have a center console with floor shifter from the factory. The front console tray must measure 9.5" x 5" in order for the console pod to fit properly.
2. **OPTIONAL STEP** Our console pod can be painted using ABS plastic paint. Be sure to scuff the surface of the pod using a scuff pad. This will allow the paint to properly adhere to the surface of the pod. Before applying paint to the pillar pod, ensure it is cleaned off and that there is no residue on the pod from scuffing it. Apply 2-3 even coats, waiting 10 minutes between coats to dry.
  - Be sure to follow the paint manufacturer's instructions while painting, also adhering to proper safety procedures.
  - Please be advised that you will not be eligible to return this pod for a refund if it is painted.
3. Connect the 2 1/16" [52mm] gauge wires to their sensors and power by following the instructions that are included with the gauges.
4. Place the new gauge pod in place with the wire coming out of the notch in the pod, and press the console pod into the opening of the console tray.
